District 4 Troopers in Monthly Meet Here

ARKANSAS STATE POLICE
DISTRICT NO. 4

The photographs, made at 2 p.m. Monday, show the troopers of Arkansas State Police District No. 4 and their automobiles gathered at trooper headquarters on U.S. 67 East for their monthly meeting.

Left to right in the picture of the men: Jack McKinley, Lt. J. H. Porterfield, Charles Boyd, Earl Orr, Guy J. Downing, Jack Dittmar, Leo Wilcox, Tom Smalley, Bobby Porter, Bob Burns, Eddie Morton, Carroll Page, Travis Ward, Sid Riley, Al Smith, Tommie Hayes, Henry Tong, and Clarence Harper, radio operator. Absent at the time the picture was made was Lawrence Sparks, radio operator.

Until the training school was over the troop operated with eight men, the commander, and six cars. It now consists of 16 men, the commander, and 12 motor units.

All 10 counties in the district have a trooper each, and there are three each in Hempstead and Miller Counties.

Ike Okay But Doctors Making Further Check

WASHINGTON (AP) — The White House said today President Eisenhower is "progressively satisfactorily" but that doctors are making "a further evaluation of his illness."

Associate White House press secretary Anne Wheaton said at 10:22 a.m. a report of the doctor's findings would be made "as soon as possible" — meaning later today.

Eisenhower suffered what the White House described as a "chill" yesterday shortly after he returned from the airport where he welcomed King Mohammed V of Morocco.

The late White House announcement raised the question whether the illness might be more serious than originally thought. "As far as indications were that the president's condition might be more serious than originally indicated," Mrs. Wheaton declined any comment. She refused, despite repeated questions from reporters, to go beyond her brief announcement.

"That announcement said: 'The President is progressing satisfactorily. However, his doctors are making a further evaluation of his case at this time. A report of this evaluation will be made as soon as possible.'

This statement followed an earlier announcement at 8:55 a.m. that the President "is progressing very well."

A reporter asked if there was any significance in the difference in wording of the two statements when they first saying Eisenhower remained on Page Three.

Lions Again Plan Annual Radio Auction

The Annual Lions Club Radio Auction will be held next Monday, Tuesday and Wednesday nights, December 2, 3 and 4, according to Cline Franks, president of the local club. Franks said the auction will have the finest list of merchandise and gift certificates in history this year. All merchandise and certificates are donated by local business men.

Proceeds from the auction is used to buy food, clothes and toys for needy families in Hempstead county. Each year a committee from the Lions club joins with the Ministerial Alliance in selecting families in need. The Lions club then purchases supplies and distributes Christmas packages on Christmas day.

How to Tell the Wife Is Always a Problem

BY SAUL PETT
NEW YORK (AP) — Among the little things in life that try a man's soul is finding the courage of a sudden conviction or, more precisely, an explanation for his wife. For example, it is 6:10 p.m., and our hero is out of the office but still downtown enjoying some spontaneous, unplanned relaxation. He has just had two drinks with the boys, and the problem now is not whether he will have more but how to tell his wife he moves to the phone unerectly.

How does he tell her? How does he break the living news that between these two biggest pressure groups in his life — his office and his home — he has discovered a wonderful world of fun. In which nothing is demanded of him.

Says Russian Lead Symbols Graver Danger

WASHINGTON (AP) — Sen. Lyndon B. Johnson (D-Tex.) said today Russia's lead to missile production is "only a symbol of an even graver danger" that the United States may fall behind in weapons of the future.

It is quite possible, he said, that by the time the intercontinental ballistic missile is fully developed "it will be fully obsolete."

"We must, of course, catch up with Russia in missile developments," he said.

"But catching up in this field alone is not enough to safeguard our security. We must raise our level of technology to the point where we are not only ready to meet the Soviets on any ground but to get there first."

Three prominent scientists told the Senate's Senate subcommittee the United States is lagging far behind Russia in the training of scientists and technological experts. The three, Dr. Edward Teller, Dr. Vannevar Bush and Dr. John Chomicki, agreed that it is imperative for this country to speed up its missile production.

After hearing their testimony, Sen. Sargent Shriver (R-Mass.) said he felt the American missile and satellite programs ought to be placed on an overtime basis "where that is at all practical."

He plugged for coordination of the missile program in the Defense Department. He said it would be a mistake to set up a separate organization.

"That announcement said: 'The President is progressing satisfactorily. However, his doctors are making a further evaluation of his case at this time. A report of this evaluation will be made as soon as possible.'

Doolittle Says U. S. Ahead in One Type Missile

WASHINGTON (AP) — Lt. Gen. James Doolittle (Ret.) testified today that Russia "certainly is ahead of us" in all land-fired missiles. He said the United States is ahead in air-to-air type.

Doolittle, who heads the National Advisory Committee for Aeronautics, told the Senate rearmament subcommittee that this country fell behind Soviet Russia because it had no coordinated program until 1953.

He said the Russians started missile developments in 1946 and they have been working harder at it than we have."

Doolittle's testimony was in direct contradiction of contentions by former President Truman. Truman has said that he organized a unified missile program while in the White House but that it was allowed to deteriorate under the Eisenhower administration.

was "progressing very well" and the later one saying he was "progressing satisfactorily."

Mr. Wheaton declined to go beyond the second statement.

"That is all I have to say at this time," she said.

Concern over Eisenhower's condition was heightened by his 1955 heart attack and last year's operation for ileitis.

Asked why it is necessary to make a further evaluation of a chill, Mrs. Wheaton said "I can't discuss that."

She also said she did not know if there was any indication the President's illness amounted to more than a chill.

She would not say who drew up the statement beyond saying it was the work of "two or three people."

Likewise Mrs. Wheaton declined to say whether any doctors besides the two who ordinarily attend the President's family were called in. Eisenhower's doctors are Maj. Gen. Howard M. Snyder and Lt. Col. Walter Tkach.

Mrs. Wheaton said no thought was being given to the resident's delivery from the White House tonight the speech on international cooperation which he originally planned to deliver at Cleveland tonight.

"There is nothing along that line at all," she said.

The Cleveland speech was canceled last night after the resident became ill. So were all of today's appointments.

The illness forced Eisenhower to cancel his plans to attend last night's dinner for King Mohamad V, and a conference with the King today. Secretary of State Dulles sat in for him today.

Mrs. Wheaton made no comment when a reporter suggested that her terse announcements were "a very unusual treatment of a presidential illness."

The newsman recalled more detailed announcements were made when the President suffered his heart attack and the later intestinal disorder.

In her first report of the day Mrs. Wheaton said Eisenhower was resting comfortably and ate a good breakfast.

Eisenhower's doctors ordered him to bed yesterday several hours after he had formally greeted Morocco's King Mohammed V at the Washington airport and ridden with the monarch in a downtown parade.

The doctors' orders kept Eisenhower from attending a White House dinner last night for the King. Vice President Nixon substituted for him. A scheduled Eisenhower conference with the King today was canceled.

While the dinner was going on, associate press secretary Annie Wheaton told a news conference the President had no fever—their earlier. She said further that his pulse and respiration were normal and that he was sleeping "quietly and comfortably" under what she termed mild sedation.

Word of the 67-year-old President's latest illness brought questions from newsmen as to whether he might be developing the flu. "I stand by my statement that he has had a chill," Mrs. Wheaton wrote.

Eisenhower was inoculated against Asian flu last Aug. 26. He had a head-to-toe physical checkup Nov. 10-11 and his doctors at that time pronounced him in excellent health.

After last night's state dinner at the White House, Nixon—who escorted Mrs. Eisenhower to the affair—said of the President's illness: "It is exactly what the White House has announced — a chill."

The first White House announcement came shortly after 6 p.m. Mrs. Wheaton issued this statement:

"The President will be unable to attend the dinner tonight in honor of His Majesty the King of Morocco. On return from meeting him at the airport and escorting him to the President's guest house the President suffered a chill and
